

# **LONG EZ**

**The Long EZ was developed for fuel efficient, high altitude, high-speed, long range traveling with room for two people and luggage. This Burt Rutan design dates back to 1984 and has become the most popular plans built, composite aircraft, of all time.**

**Sisterships to this craft hold most of the world records for altitude (35,027ft), distance, and endurance.**

**John Mc Avoy routinely flies this aircraft non-stop, from San Jose to Detroit in less than 10 hrs.**
